

FSG820-2 Fullriver Battery: Powering Industrial Applications with Reliability

FSG820-2 Fullriver Battery: Powering Industrial Applications with Reliability

Understanding the FSG820-2's Technical DNA

When dealing with industrial power solutions, the FSG820-2 Fullriver Battery stands out as a workhorse in stationary applications. Built on Fullriver's proprietary lead-acid technology, this 2V cell delivers 820Ah capacity through thick tubular plates that resemble reinforced concrete columns in their structural integrity. The secret sauce? A calcium-tin alloy grid that laughs in the face of corrosion, giving it a 15-year design life under proper float conditions.

Key Performance Advantages

Cycle life exceeding 1,200 cycles at 80% depth of discharge

Self-discharge rate
