

# LA12-120-300 Wiltson New Energy: The Future of Industrial Energy Storage

LA12-120-300 Wiltson New Energy: The Future of Industrial Energy Storage

## Decoding the Power Behind the Numbers

When you see a product code like LA12-120-300 in the new energy sector, you're looking at an industrial energy storage solution's DNA. Let's break down what this alphanumeric code really means:

LA = Lithium Aluminum series (industry standard coding)

12 = 12V nominal voltage

120 = 120Ah capacity

300 = 300A maximum continuous discharge current

## Why Industrial Users Are Switching to New Energy Storage

Imagine powering a mid-sized factory with the energy equivalent of 1,500 car batteries - that's exactly what the Wiltson LA12-120-300 system can handle. Recent data shows:

38% faster ROI compared to traditional lead-acid systems

92% round-trip efficiency rating

15-year lifespan with
