

Samlex America SSW-350-12A: Powering Off-Grid Adventures with Precision

Samlex America SSW-350-12A: Powering Off-Grid Adventures with Precision

When Clean Energy Meets Clever Engineering

Imagine running your CPAP machine during a blackout while keeping your smartphone charged for emergency calls. The Samlex SSW-350-12A makes this possible as a 350-watt pure sine wave inverter that's become the Swiss Army knife of portable power solutions. Unlike modified sine wave units that make sensitive electronics hum like angry bees, this gray marvel delivers utility-grade electricity from your 12V battery.

Technical Specs That Matter

Continuous output: 350W (700W surge capacity)

Efficiency rating: 88% at full load

Zero-load power draw:
