

Sunway TG 900-1500V TE: Powering the Future of Industrial Solar Solutions

Sunway TG 900-1500V TE: Powering the Future of Industrial Solar Solutions

When High Voltage Meets Smart Energy Management

a solar farm stretching across arid land, its panels humming under the midday sun. At the heart of this energy symphony sits the Sunway TG 900-1500V TE inverter, the unsung hero converting raw solar power into grid-ready electricity. This isn't your average voltage converter - it's the industrial-grade workhorse redefining large-scale photovoltaic systems.

Built for the Big Leagues

1500V DC input capability - 25% more efficient than traditional 1000V systems

IP65 protection rating laughs at dust storms and torrential rains

-40°C to +60°C operational range (perfect for desert installations or alpine projects)

Night power consumption
