

ZB-1200-S: The Smart Choice for Industrial Vacuum Solutions

ZB-1200-S: The Smart Choice for Industrial Vacuum Solutions

Understanding Zonbo's Electrical Innovation

In the realm of industrial automation, the ZB-1200-S vacuum system stands out like a Swiss Army knife in a toolbox. This compact unit from Zonbo Electrical combines ejector technology with vacuum pump operations, delivering what engineers affectionately call "two-phase vacuum magic" - achieving both rapid evacuation and precise pressure control.

Core Technical Specifications

Maximum vacuum flow: 52 L/min (air)

Operating pressure range: -100 kPa to 70 kPa

Response time:
